The internship in YFU Paraguay has taught me a lot. I have had the possibility of working with many areas within YFU that I hadn't before. My internship has also given me an incredible insight in the challenges and differences that exist within our YFU community. I am sure all these will contribute to my personal, professional and YFU life in the future.

Paraguay is a country which you need to live in to get the real magic - to feel the vibe. Prepare yourself for an embracing and open culture and a people full of warmth.
